Note: Mr. Bly.

We made a pickup run on december 23, 1999 as requested. We were unable to enter the area where the dumpster is located, as there appeared to a company party taking place in the break area located in front of the dumpster. We remined in the area for a short time, however, the party continued and we departed the area. We will continue our efforts on January 3, 2000 as advised. Thank you for the work.
